[Image courtesy of Softwish] The Curves Editor lets you use a sloped graph to adjust the overall brightness and contrast of an image. It is particularly handy when you just don't like the way a photo appears in your View Finder. [Image courtesy of Softwish] The Gradient Mesh allows you to change the shape of an image based on a set of points. This is useful for creating images of extremely smooth surfaces or complex patterns. It is also great for creating gradients or textures in Photoshop. [Image courtesy of Erika Sarai] The Eye Dropper tool is a handy alternative to the GoTo tool. It provides a shortcut for accessing precise coordinates. The Eye Dropper will allow you to set up a series of points for precise positioning in an image. [Image courtesy of Erika Sarai] The Magic Wand tool is great for finding the spots in an image that have a dominant color. The tool then highlights areas in a consistent color. [Image courtesy of Erika Sarai] The Pen Tool lets you make lines, circles, and rectangles using simple clicks and drags. You can create lines, circles, and polygons by simply drawing with the Pen Tool. The lines and shapes you draw with it are saved in the Layer Style's Paths panel. [Image courtesy of Softwish] The Pencil tool lets you draw with a single point by clicking and dragging around the canvas. The tool is a great way to create rough designs or sketch a basic concept of an image. [Image courtesy of Erika Sarai] The Rectangle Tool allows you to create a box from a precise start and end point by clicking and dragging. The tool's width and height settings can be adjusted in the tool's settings panel. It can be really useful for making sure that areas that should be the same size are the same size. It is also useful for setting the size of a shape and then using that size to make boxes around other images. [Image courtesy of Erika Sarai] The Rounded Rectangle Tool allows you to create an arc around an image. This is often very useful for making a rectangle that has rounded corners. It works great for adding a light effect to a regular rectangle. [Image courtesy of Erika Sarai] The Star tool is a very useful tool for creating easy gradients. You
